IN THE MATTER OF THE MINISTRY OF FOREIGN AFFAIRS, US VISA FRAUD AND TREASON Suit No. FHC/ABJ/CS/1774/2025

OPEN LETTER TO THE CHIEF JUDGE: URGENT NEED TO RECONSIDER DIPLOMATIC RELATIONS WITH THE WEST, INCLUDING THE EUROPEAN UNION AND CANADA

Milord,

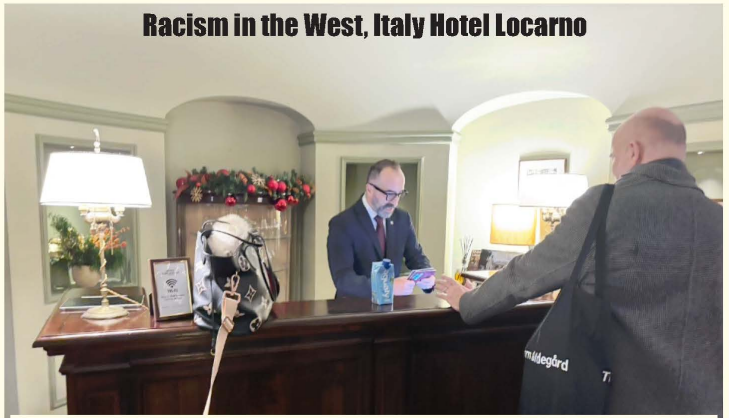
In the course of litigating this action, I have had recourse to the Blessed Mother, Queen Mary, such that during my pilgrimages across Europe, my eyes have been opened to the glaring existential racism in Western nations and in particular, **Italy.** I've been first handedly been introduced to the world of demonic convents by Western world powers seeking to create an enabling environment of despondency in Africa so as to coerce its ruling elite to "save themselves" as a way out of poverty. What do I mean?

In 1993, on an excursion to Germany, my father, L.E Nwosu (SAN) got into a swimming pool with his wife, at his hotel in Germany, and all the White people got out in protest. In 2025, 23 years later, I am brazenly being denied accommodation/ airlines in Italy, France and Canada on account of my race. On an air Canada flight AC89 on 23rd December 2025, I was told to leave the plane because their air hostess, Lynn Dysforges, did not want my black face in business class. I opted to file a criminal complaint, and the Italian police said that I should wait for the captain's report, they will contact me…they haven't contacted me. Air Canada did nothing but open a ticket that will die in the dungeon of discrimination bureaucracy like my last complaint. In the West, I am lied to that hotel rooms are unavailable on bookings I have prepaid, while the hotel staff proceeds without shame or reservation to check in other White guests, as in the case of Hotel Locarno, Hotel Nolinski the Waldorf Astoria, NunAssisi hotels, Italy. I am denied access to facilities, wherein the staff rise in the morning to close facilities, I have pre-booked to use, as in the case of ViewPlace Hotel in Ancona. In fact when I ordered a "slice of fish" from the menu, I was served octopus, meanwhile my dog, was given the slice of fish fillet…Italy is a site of religious pilgrimage for Catholics. However it appears racism is back in full force under Meloni, and has perpetrated the religious walls and courts of law such that there is no separation of church and state. For example, my lawsuit denouncing the race based discrimination of African descendants by the ecclesiastical Catholic Community of the Beatitudes, whose psycho-manipulative leaders were convicted in France, was muffled by White racist judges in the District Court of Colorado, California and Washington, DC. See *Nwosu v. Bolduc et al.*

In these lawsuits and throughout my voyages in the West, one readily perceives how demonically possessed racist Westerners are. This is especially true in **Italy, Italy, Italy, where the racism is so pointless, it's stupefying. In the words of the chanteuse Ms Nina Simone,** "[Italy] Hot damn." Truly, the poor shouldn't have servants, and children should not have kids. How Italy is a G7 country beats me: the people are undereducated, lazy, corrupt, and excessively licentious.. We must ban Nigerians from migrating to Italy to work as anything less than top class professional such as doctors or lawyers, because to live in Italy as a nurse or maid, is to be a slave in an impoverished country of wealth and spirit.

Unfortunately for the West, what remains of their religious past is their beautiful cathedrals and basilicas. By contrast, their citizens are typically devoid of active religion, giving recourse to new age nonsense like yoga, buddha, tattoos etc etc. Their large corporations are run by satanists, and even their presidential candidates are satanists in disguise - for example how can anyone endorse abortion? That is to say, murder of the innocent under the pretext of reproductive care? Yet, these nations bring these ideologies through their public health and aid programs to surreptitiously slither into our countries, schools and culture. For example, In BIS, I had an Scottish teacher who made Nigerian children draw pictures of mamiwater as early as 11 years old, and weird fish monsters. You will recall that Scott/Irish are known for their sea gods and marine spirits. Imagine the indoctrination into evil, while going to "school?" The ode to foreign deities by unsuspecting Nigerians continues today, with every can of Guinness Malta purchased, proudly showcasing the logo of the Irish harp, *in Nigeria.* The harp in Irish mythology was used as "magic" music to overpower countries, sovereigns and enemies, sometimes through sleep. And boy is Nigeria sleeping, with each can of Guinness it produces bearing the deified Irish logo. By contrast, when has Ireland ever placed the Nigerian Eagle on any of its products in Ireland? So why do we let them export and impose their rubbish culture on Nigerians - just look at Nigerian music now and music videos - every woman is naked, noses are pierced, hair purple, nonsense. This is the same Ireland that was so racist, their medical "professors" at University College Cork assaulted me physically and altered my grades to mark me down, because they REFUSED to believe a BLACK PERSON should be INTELLIGENT. I sued the school and the recruiting agency for ever advertising the racist institution. *See Nwosu vs. Atlantic Bridge*, and **Empathy Psychopathy: Racism and its debilitating role in Judicial Mental Disability,** the book I published on apple books.

Nigeria has also let these western countries corporations into our culture. For example, top brands like the Hilton worldwide Inc., are at the spearhead of advancing the demonic agenda of homosexuality and licentiousness, and Black poverty. These hotels, including Marriott, and Accor owners of the Fairmont, Washington DC, discriminate by surcharging Black people, and yet they are operating in Nigeria for their profits. Besides being racist institutions, they also promote pornography, child molestation, under the guise of art, as they take pride in displaying the bodies of naked children in their hotels, as in the case of the Waldorf Astoria in Rome, the Four Seasons Hotel owned by Bill Gates and Arab donors. What's more is that these hotels are fraudulent, and use cheaply renovated products, you would think youre in Alaba after shelling euro. For example, In France, I stayed at a fraudulent Hotel Westminster on 13 Rue de la Paix, where my ring was stolen, and their toilet broke because they refused to heat their bathroom, yet France's Atout France regulation agency ranks it as 5 star to steal money! **They can't regulate their own people and yet they are regulating you.** Till date although the police stated firmly the hotel is liable by law to replace it, the hotel's insurance has suspended my payout indefinitely. Yet to obtain visas, these EU countries make us purchase their expensive insurance and make Nigerians jump through all manner of useless hoops. You following the Ponzi scheme? No lawyer in France will take the discrimination case, and there are hardly any Black lawyers in France now, why? It takes a cycle of 100 years, approximately two generations, for an immigrant maid's grand child or great grand child to have surmounted the challenges associated with poverty and racism (living in violent neighbourhoods, affording only a lower class education, distracting friends, inadequate meals), to obtain a professional degree in Europe, and by that time, the statute of limitations is gone.



Mrs Johnson had to miss the January 6 2026 Epiphany celebration and closing of the Holy Door of Saint Peter's basilica, because Marco, senior receptionist staff at Hotel Locarno ***Italy*** *ILLEGALLY denied her accommodation, by stating the hotel was fully booked, though her booking was prepaid. Marco, pictured proceeded to check in White guests. Expedia, Inc, who has been motioned for a joinder to this suit, refused to de-list the property though the property violated their terms by discriminating based on race. Expedia also refused to delist Hotel Nolinski, in Paris, which is a conduit for sex trafficking for wealthy Arabs, although the claimant filed the police report of what she witnessed and sent to Expedia. These "5 star" hotels want to see your Black face mopping their floors, instead of serving you. Expedia is owned by the demonic finance house BlackRock, Inc, whom Mrs Johnson had sued alongside Bill Gates Cascade Investments for discriminating against Nigerians and surcharging them in his Four Seasons Hotel. See Nwosu vs. Cascade Investments, LLC. 9th circuit court of Appeals. Stop booking with Expedia, Trip Advisor, booking.com as they scrub their reviews of discrimination complaints and don't protect Black consumers*

Discrimination is a form of abortion as it is a personal attack against the life of the innocent and inherently violates the dignity of the person. It is anti-Catholic and anti-Christ. So there's no difference between Kamala Harris who is pro-abortion and Donald Trump who is racist. Furthermore, although the Western countries all have anti-discrimination laws, the laws are not enforced. In fact, they discriminate, impoverish and outrightly kill Black people as a way to build power in their demonic convents, headed by the CEOs of banks of the Western world1. This is why the White Missouri governor Mike Parson ordered the execution of Black man Marcellus Williams in September 2024 despite **prosecutors of the defendant, Marcellus Williams,** dismissing the credibility of the evidence against him. This is why the KKK exists. White people offer Black people's lives as human sacrifices, in ritualistic killings, alongside unborn babies, to satan, in order to build wealth and power. In fact there's a popular slogan in America that White women wear as handbags: *"Fund Abortion, Build Power."* This is why their jail cells are filled with Black men2, primarily sentenced to death by White women, like Yale Judge Dabney Friedrich and Pam Bondi, now attorney general of the US. I had to sue Dabney because she illegally dismissed by case by counting wrongly the days to file a motion, yet she can count how many years an innocent Black man must waste his God given life in prison as she sits as chair of a sentencing committee in Washington DC. "Judge" Dabney's husband, Matthew Friedrich, is a top legal insurance executive for United-Health Group, the same group where the CEO was allegedly killed by a bullet wound for failing to pay for dying patients medical needs. So you see how they literally marry/come together: demonic wealth and human sacrifices? Demons prey on oppression, and Catholic exorcist priests will tell you that one of the ways demons possess a soul is through oppression/trauma. The West through their racism, economic laws oppressing African economies, instituting on devaluation through the IMF and World Bank, unenforced anti-discrimination laws, create an environment for despondency and decay: your money is worthless because they perpetually want you to be net importers of their products, and devalue the price of your commodities like lithium, coco, copper, shea butter. Nigeria has no business enlisting Siemens to build a power project. Siemens is owned by Israeli funded BlackRock,Inc the same lenders who start wars, so they can abandon their projects in Africa, with force majeures clauses, while leaving you in debt and with incomplete projects. Sound familiar? Start manufacturing solar panels.

Population control is another means of enslavement; satanic priests who cast spells for these Western CEOs will tell you a smaller population is easier to control. Thus they introduce viruses through medicine and food. Lobbyists for abortion and contraception, such as Bill Gates bring contraception and vaccines as a form of population control under the Bill & Melinda Gates foundation. They also control you through what you eat. For example Bill's Green Africa initiatives promote genetically modified seedlings that profit pharmaceutical

industries like Bayer, which his institutional investors, like BlackRock, Inc, owns3. Uneducated African leaders put innocent souls in trouble by allowing the West to control their agriculture, under various nefarious "aid" programs AI, GMO, green technology etc scam programs. It is no secret that the American CIA, in the 1970s through Satanic Scottish doctors experimented with how to alter the brain, through food and religion, to increase one's propensity to become homosexual. The explosion of homosexuality among uneducated African Americans is not a coincidence but part of the CIA's MK-Ultra program to promote gender dysphoria.

Thus, **Nigeria must abort all its trade deals with the EU because they were not brought in good faith by the EU and the Nigeria persons, i.e. politicians like Shettima, who signed/endorsed them, were not first class economists or political scientists.** i.e. they were not learned, qualified or competent to review such agreements, and before the law, where there is asymmetric competency, any and all such agreements are **null and void.** These courts have annulled contract agreements under such circumstances; particularly in the case of land contract agreements where Royal Dutch Shell rented oil fields in Nigeria in perpetuity for 20 kobo with the indigenous population. In the same vein, if Nestle wants to sell fine chocolate for €70 on the streets of Paris, it needs to pay € 50 for the coco pods in the streets of Nigeria, not 50 cents. If addicted Italians want to drink coffee all day, they need to pay €1 to Nigerians for their €1.40 shot of espresso. Germans make expensive coffee machines worth €1000s to validate their "ingenuity." Yet none of these geniuses rivals God's who causes the bean to grow in Equatorial countries. No wonder they hold God and Africans in contempt having put more value in the work of their hands, than in the God who created them. If you dared, like I did, seek to partner with them in Nigeria and create industry, these Western companies, like Germany's Bosch & Lufthansa German Airlines, Kingfisher Plc, will cry wolf and state Nigeria is insecure to set up manufacturing, yet they create and promote the propaganda of the insecurity causing wars and famine…Who launched an air strike into Sokoto , was it not the US? Who created the guns Nigeria army uses, is it not the Middle East? Who displayed the failed mission for the world to see was in not the UK's media company Thompson Reuters? So you begin to see the concerted effort to keep this nation under bondage by the West. And they use your persons, who serve the god of money, under the guise of religion, such as your foreign affairs minister, Yusuf Tuggar and Bauchi governor; the former who is now under a 45 million dollar embezzlement/misappropriation probe and the latter who blocks the US from being made persona non grata for all its theft from Nigeria because he is seeking mining contracts.

Really Behind Africa's Seed Crisis

Since Germans don't want to promote real industrialisation but continue to extract from Nigeria, Nigeria needs to close down the German Kellogg factory it built under its GIZ's "aid" agricultural program. They use its development agency GIZ as a backdoor to scout for minerals an they're simply pushing their **finished** consumer products into Nigeria, competing unnecessarily with Nigerian manufacturers like NASCO. Meanwhile, these EU countries create all manner of useless regulations to prevent Nigerian exports to their countries. Thus, we must ban the importation of finished EU consumer products into our country since these nations strategically do not wish to produce in Nigeria, under the guise of lack of security, though they cause the conflict. The airlines like Lufthansa German airlines who do not wish to partner with Nigerian brands must carry their load and go, and stop surcharging Nigerians spectacularly on airfares and requiring we buy **transit visas**, to fund their embassies.

Nigeria must also ban the UK imposed visa system. Visas are a war tool and a form of control. It was started by the UK during WW1 to regulate the entrance of potential enemies. Thus the practice **that requires Africans to come naked to embassies with their bank accounts, to show that they won't overstay or can afford the ridiculous prices Europeans charge to drink clean water, MUST CEASE. No MORE VISAS.** Moreover this same UK is the one offering passport by investment schemes, through Astons UK, etc where wealthy Africas pay over 1,000,000 euro to become a citizen of Bulgaria and St.Kitts so they can travel visa free. **These investor visa programs and passport hierarchy schemes must be banned and abandoned.** The West came to colonise without visas, and we so can enter their countries **without** visas. Colonisation must be recognised a criminal act, and so must OPEC. In furtherance of this issue, **Nigeria must abandon the concept of Western commodity exchanges where they trade our commodities for dirt cheap,** while lining their pockets through future and options investment contracts. **We stop simply stop selling our commodities so the West can either die or get with OUR RULES. IT'S OUR WAY OR THE HIGHWAY.**

Nigeria has no business claiming a muslim brotherhood with the middle east, whose racist countries started the earliest African slave trade and who seek ANY opportunity to ban Black people from entering their country. **Islam is not a religion. Wake up, it is a conquest kingdom, descendants of Ishmael, who are "skilled with the bow and arrow"** and all those protestants telling you sell you car, last kobo to sow seed are not Christians: pastor Jerry Eze and co, "e dey work." Nigerian Pastors are the wealthiest in the world, while their congregations remain impoverished. Jesus is not a genie to be baited and tithing is pre-messianic: **Obedience is Better than Sacrifice.** Thus, we must also be prudent about the importation of various religions and Christian sects into Nigeria, as these are vessels fror

corruption: for example the propaganda air strikes that happened in Sokoto to allegedly kill "ISIS" was pushed by Michigan congressman Bill Huizenga who is part of a dutch "christian" church operating in Nigeria. Recall the Islamic religion was brought in by conquest from neighbouring northern countries to claim land and said "religion" repeatedly Christian pillaged and looted sacred sites and relics in medieval Europe. Similarly Indians worship elephants. Nigeria has passed the stage of worshipping deities , so religion must be regulated lest people are brainwashed into false doctrine and open up demonic portals for chaos in society. Do not believe what the West pushes on us to accommodate "religious freedom." In a mark of stark hypocrisy the said human rights emblem, the United States and its Supreme Court clerk , governed by Yale University, has refused to docket my appeal, which states that the liberal agenda imposed on the rest of the world, i.e. homosexuality, gender dysphoria, contraception, abortion, identity politics, are all forms of religion; thus there is no separation of church and state, as required under the United States first amendment. Why has Yale graduate and Clerk of the Supreme Court Scott Harris not docketed this case? Because I'm right, and all their gay judges, or gay sympathising judges, promoting the war in Israel, to build beachfront properties, will crumble, if they docket it.

Finally, for the Catholic Church to flourish in Nigeria, all these priests who garner large sums under annual harvests, for one useless project or another need to go. This is not the Church Christ founded under saint Peter. Instead of propagating the lives of the saints, like Saint Francis of Assisi, for which the Pope has extended the year of Jubilee, and teaching true Catechism, they are running around squeezing the last cent of parents school fees to build civic halls for endless useless meetings, instead of investing in industries to alleviate poverty. Instead of teaching about the powers of the Theotokos, Mary mother of God, they are oppressing women in churches. Instead of becoming educated on the racism that is pervasive in the Church, they still paint Jesus and Mary as White in frescoes, blindly copying the West, when the Jesus and Mary are brown skin Palestinian people. Pope John Paul II and Saint Francis, have special devotions to the Black Madonnas: Our Lady of Loreto, Our Lady of Czetochowa, Our Lady of San Luca, the former two portraits painted by Saint Luke himself are portraits of Mary, Mother of God, in her true skin colour: Black. The racism in the Catholic church must be denounced on all counts, and Communities such as the **Community of Beatitudes, known for their sex scandals, abilities to break up families with psycho-manipulative tactics** run in Denver Colorado, MUST BE SHUT DOWN! This racist demonic community, even brainwashed my husband put him under house arrest for marrying a Black woman, causing him to lose his job as a senior executive in fortune 500 American defence company! In fact the community's lawyers hijacked his phone and email, IMPERSONATING HIM, when I sued them, demanding his freedom. This is all happening TODAY! *Google Nwosu v Bolduc et al in the 9th Circuit Court of*
Appeals. Demonic Yale judges are blocking the case from being docketed in the Supreme Court of the United States. The Irish Apostolic Nuncio to Nigeria, must **leave. NO MORE MENTAL COLONIALISM OF ANY SORT. MARY IS BLACK AND SO IS JESUS.**

Reliefs

The reliefs are simple:

1. Withdraw Nigeria's participation in Visa programs with the West. If Nigerians wish to travel, can afford to, and don't have a criminal record **in Nigeria,** they should be free to go wherever they wish VISA FREE. SUSPEND ALL THOSE UK VISA FREE INVESTOR PROGRAMS
2. Cancel the trade agreements Nigeria has signed with the EU, and kick the EU countries out for fraud, they failed to uphold their reciprocity agreements by not enforcing their anti discrimination laws and engage in modern day slavery
3. Ban the World Bank and IMF staff from entering Nigeria; they are not on your side (ever), but are loaned money through demonic institutions like BlackRock, Inc and JP Morgan, whose bloodline it is to offer Black lives as human sacrifices
4. Kick out the Bill & Melinda Gates Foundation: the man sleeps with every woman he sees and sells counterfeit seeds, he has been procuring a cure for malaria for over 20 years with no result, yet he can released a new version of Microsoft even year, and is making mass profits on his GMO seedlings that he invests in his anti-Black hotels like the Four Seasons.
5. Suspend the operations of Western countries in Nigeria such as Mobil, Hewlett Packard, the Hilton WorldWide Inc., Marriott, Italy's Eni, Ireland's Guinness, the UK's DFID, Germany's GIZ, since their courts suppress discrimination cases, and instead promote race based discrimination, anti trusts violations and child pornography guised as "art."
6. Ban the operations of non-Nigerian media companies in Nigeria, that promote useless propaganda and misinformation globally.
7. SHUT DOWN WESTERN SCHOOLS IN NIGERIA, i.e NO MORE ITALIAN SCHOOL, FRENCH SCHOOL, GERMAN SCHOOL, AMERICAN SCHOOL, **NO MORE SEGREGATION**: If they want to be here, they must integrate into Nigerian society, and not stay apart in superiority. Their languages can be offered as extra- curricular activities for everyone to learn, after all it is spoken in their homes. Require that Nigerian academic institutions drop the prefixes of British/American/Turkish in their names as it glorifies colonialism and Whiteness, which is already a criminal act in

countries like Algeria. Thus no more "British" International School or "British" Nigerian Academy, or advertising you teach the British Curriculum as form of superiority in learnedness. **NIGERIANS MUST LEARN ABOUT THEIR HISTORY, AND AFRICAN HISTORY BEFORE COLONIALISM AND ISLAMIC CONQUESTS OTHERWISE IT WILL CONTINUE TO BE A LOST NATION. NIGERIA MUST BECOME A TRUE PEACEFUL FEDERATION: I.E. DECENTRALISED ALONG ITS ETHNIC AND RELIGIOUS LINES - RE, THE ABURI ACCORD**

May Milord be pleased to grant all other reliefs the court seems just. I had to write an open letter since my last letter to you on 13 January 2026, appears to not have been delivered or filed.

Yours Sincerely,

Mrs Adaeze Johnson, Claimant, 20 January 2026 BSPH Public Health, University of North Carolina MSc International Development, London School of Economics
